So for today there were 6 loads picked up, please send signed BOL's, tomorrow there will be the following pick ups

MC018

MC019

MC020

The above are with Del Express and the breakdown are as today 300/1200/1200/300.

Then we will have 5 loads with Uber as below

MC021

MC022

MC023

MC024

MC025

The breakdown should be 250/1200/1250/300

Note that you will probably need to unload container MATU2555322 in order to have enough size small. So, please make sure to have it all unloaded.

Also, note that after this, on Friday and Monday we will not have any pick ups, I will want an exact count by Tuesday morning.

Jimmy,

Please see attached first BOL

Every load for Del Express, before loading, please send me the truckers drivers license along with the BOL, Del Express needs it for approval.

Good morning,

Following up on below, today we are arranging 10 loads with the below breakdown

350 small

900 medium

1450 large

300 XL

5 loads with Del Express, and 5 loads with another carrier will update you soon. The PO's should continue as MC012, MC013, MC014, MC015, MC016, MC017.

Please double check on the quantities if we have enough small, and please update me on the status of the 3 containers still at port.

Sure,

Hopefully if all 6 containers at port will be unloaded we will have enough small, so we will arrange 10 loads with carrier Del Express . Right now only 8 loads are confirmed but we will up it to 10 loads.

The breakdown is as follows

350 small

900 medium

1450 large

300 XL

Hi Joseph,

While I'm putting together bills shipped on Friday with Uber freight. I ask if you

Can please send an email of the loads that need to be loaded on Wednesday with carrier name and breakdown quantity.

Please make note if small are available for all shipments.
